

Fully Managed Network Solution

Firewall

Protect your organization by allowing access to business critical applications while blocking unnecessary social networking and other unwanted sites. Enable your organization to be more agile, mobile, safe and resilient with advanced virtual private network technologies as well as mobility.

Wireless

Allow your employees to roam the office and work in collaborative groups freeing them from the tether of the network cable. Also allow guests to your organization access to the internet while segregating your important corporate data.

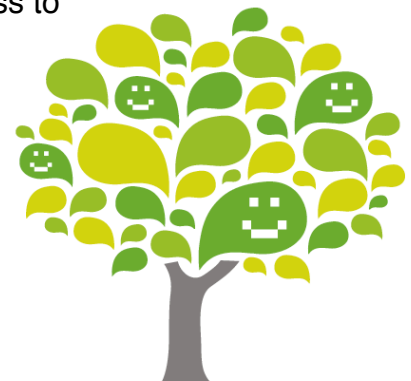

Network Switching

Remove all worries with the backbone of your corporate network. Physical connectivity is crucial to your organization for servers, PCs, and printers. Enjoy fast physical access, no-worry operating, and a lifetime hardware warranty to give you the necessary peace of mind.

FREE 3G/4G/LTE Backup Connectivity (where available)

With a 2 year or longer management agreement, Mirifex will provide you a redundant internet connection via a 3G/4G/LTE cellular connection allowing your business to have a complete peace of mind that it will stay operational in the event of an internet outage.

Contact us today to get a free quote and determine 3G/4G eligibility at info@mirifex.com or (440) 891-1210 Ext. 201
